

➤ **Developing and Evaluating Approaches for Accelerated Attainment of MDG 4 and 5 in Ghana and other Sub-Saharan African Countries**

This ACCELERATE project was a collaboration between the Netherlands Organization for Scientific Research (NWO/WOTRO), University of Utrecht and SPH. The project sought to promote the reductions in maternal and infant mortality by developing and evaluating approaches for accelerated attainment of MDG 4 and 5 in Ghana and other sub-Saharan African countries. The intervention aimed at strengthening the basic health system functions of organizations and the delivery of essential health services, human resource management and governance. Prof. Irene Agyepong-Amartefio was the lead investigator at the School of Public Health.
