

➤ ***Community Knowledge, attitudes and practices relating to Ebola Virus Disease (EVD) prevention and medical care in Ghana***

Following the outbreak of Ebola Virus Disease (EVD) in West Africa, the World Health Organization called for proposals to conduct a study on Community Knowledge, Attitude and Practices regarding EVD and medical care in Ghana. Professor Adongo's proposal was selected to undertake this GH¢209,055.00 eight week project in five of the ten regions in Ghana. This project has since been completed and the results disseminated to policy makers to guide intervention should there be confirmed EVD case in Ghana.
